# 20 YEARS AGO WE CHANGED THE WAY ATHLETES DRESS.

THE FIRST SHIRT

Under Armour's vision is to inspire you with performance solutions you never knew you needed and can’t imagine living without.

# OUR HISTORY

1996 marked the beginning of Under Armour's successful story. Then 23-year-old founder Kevin Plank, inspired by his personal experiences as a college football player, created a new generation of sportswear. The moisture-regulating performance fibers of the very first Heat Gear shirt guaranteed a cool, dry-wearing comfort, especially when temperatures were particularly high.

Until today, Under Armour is pioneering in developing innovative functional materials. The team of scientists, product designers and athletes makesevery effort to provide sportsmen with the best equipment to achieve maximum performance. With its visionary Connected Fitness approach and the accompanying portfolio of apps, Under Armour has founded the world's largest digital community for fitness and health.
